

MEN'S DEVELOPMENT PROGRAMME

.....the powerful and pioneering course for men.

What is Navigator?

Navigator is a proven work and personal development programme which helps men to reach their potential whatever stage in their career. The Navigator development programme enables men to identify the clear, practical and realistic steps that they want to take in their lives and then develop the skills and determination to do something about them.

Who is Navigator for?

Whether you are manual, clerical, technical, administrative, research or professional staff, Navigator is designed to be effective for men from all backgrounds, ages and stages of their lives.

What results can you expect?

The results relate to the objectives each man sets himself on the first workshop. Many men use the programme to get results at work, such as new qualifications, promotions, new skills, a new attitude to change and a massive boost of energy, motivation and determination.

Others focus on results in their personal life, such as sorting out difficult relationships, improving health, dealing with stress and gaining a work/life balance.

Some men move up their career ladder after attending the Navigator development programme for men, whilst others stay in the same job but with an invigorated sense of purpose and a more positive attitude.

Why men only?

Navigator is pro-men, but definitely not anti- women! Men and women approach personal development issues in different ways, so two separate programmes exist – Navigator for men and Springboard for women. Both address the person as a whole and help each individual find constructive responses to how they want to develop their lives.
